## PREFACE

No city or town of today can expect to prosper or progress without making adequate municipal improvements; without such it will never be looked upon as being any good, or having any future; but simply will be called dead or a has-been. In business circles, the City Directory is just as important to the health and vigor of a business, whatever line it may be, as municipal improvements are to the health and vigor of a town; they both go hand in hand; they both mean progress; for they both stand for

### EFFICIENCY

which fact is being more vividly demonstrated every day; for there are ten towns today with modern improvements where there was only one a decade ago; there are thousands of City Directories in use now where there were comparatively few just a short period ago.

### PRO BONO PUBLICO

These words truly state just what the City Directory is—a publication for the benefit of the public; for many years the City Directory has been recognized as the standard book of reference regarding the citizenship of a community and its commercial importance, but it is only of recent years that the business world has awakened fully to the realization of this need; and though the world and mankind today is facing the greatest calamity known to the human race, for never was the saying so true as now, that rivers run red with blood, but amid strife and conflict, the world moves on, business turns a deaf ear and goes ahead, for the great American Republic knows no such word as stop—forward, ever forward, is her commercial as well as her battle cry.

It is, therefore, with pleasure that we present Volume XVII, the first war edition of the Asheville City Directory.

*Yes, this is a good strong, durable kind, and a fence is a good thing in its proper place,*

**BUT DON'T FENCE IN YOUR BUSINESS**

The Business Man or Merchant who says he does not need to advertise as he has more business than he can handle, doesn't get my trade if he puts it that way. No, I prefer to help the fellow who needs it. Of course that man has no use for a City Directory, for he is absolutely contented.

Yours truly, DIRECTORY PUBLISHERS.

## WHAT'S IN A NAME?

(Perhaps more than you think)

It was the learned Paul who said that a good name is to be valued more than riches and that, "soothe them the great things ye see, and, 'Good name in man or woman - the golden rule of their soul,' but these are deep thoughts of deep thinker - truthly expressed in words, and do not stand in an ordinary sense to names in their varied form, or the general usage, to which they are put.

### CAN NOT DO WITHOUT NAMES

Names are in vogue every where. The world would be a complete failure without names, for there would be confusion that would for aye - the tower of Babel incident. The world could not do for mess, nations and empires could not progress, for men could not communicate with each other and the lover's ardent appeals would be to no more and the world be left of loss.

### NEEDED IN EVERY RELATION OF LIFE

Hence the world can not get along without names. The success of the educational world, the religious world, the social world, the commercial or business world, depends on names.

### CAN NOT TRUST TO MEMORY

The world is too large, too hot for men to trust entirely to memory. Many a time a man may want to know where, such and such a place of business is, or where such and such an article may be purchased, or where he can find the address of this or that person.

### WHAT YOU SHOULD KNOW

What do you tell them? What is your answer? Do you know yours-elf? These may be rather pertinent questions, but they are things you should know, and the answer is in a matter of only three words.

## THE CITY DIRECTORY ERNEST H. MILLER PUBLISHER

Is it a "Bible book?" you ask. Well, yes. We venture the suggestion that outside of the Bible, there is no book of such general use as the City Directory. Does it give you more? Well, no, there are some who can't read, and there are some who do not read it as much as they should, neither do they ever use the Bible as they should, but that is not our fault. We can not compel anyone to use the Bible, but any more than we can compel people to read the Bible. But here is the man who does not hesitate to tell every one what a good thing it is.

1. Locate the fire alarm box nearest your home
2. Stay near the box when pulled for fire, to direct the firemen
3. In case of fire, call Fire Department. Speak distinctly when calling the department by phone. Give the exact location of the fire. Don't say: "Come to my house quick."
4. Keep on the sidewalk when apparatus is going to a fire
5. Give the right-of-way to the fire department when it is responding to an alarm
6. Realize that the fire department is ready at all times to respond to fires within thirty seconds after an alarm is sent in. That delay in sending in an alarm is responsible for nearly every large fire that occurs. With snow on the ground and a two-mile run up hill, the department must be notified quickly to be of any service. The most efficient service is rendered if the department arrives within three minutes after the fire breaks out
7. Own a fire extinguisher if possible.
8. Have two six-quart pails always handy
9. Give the firemen credit when they deserve it
10. Look for exits in theatres, halls and public buildings

# Why?

## There's a Reason

Because, just as the live wire which carries the current which turns the wheels of numerous industries, so does the City Directory carry the Lights to the buyer seeking goods in your line.

Because, just as the magnetic needle points the way to the mariner, so does the Directory point the way which brings together the Buyer and Seller.

## Nuff Sed

## Up-to-Date Methods

In this Progressive Age the City Directory is found on the Busy Man's desk.

Because he is wise to its true value, the cost of about a penny a day means to him the Saving of Dollars.
